Tarik Casteel  
Contractor

Dear Mr. Casteel,

I personally want to thank you for being a part of the Hamilton Health Center Phase 1 and 2 building project. I received outstanding reports from the General Contractor about the quality of your work and how you remained within budget and the timelines. In fact, I understand that you finished before expected. You were always professional and did an outstanding job managing your work crew.

I understand that Phase 1 of the Hamilton project had a number of challenges because we were rehabbing an existing building. Although these were challenges that had not been anticipated when you initially bided on the project, you continued to work on the project while you worked through the business issues. Phase 2 provided you the opportunity to have a bigger role and again you and your team did excellent work and are part of the reason why our project will finish ahead of schedule.

I truly appreciated the professionalism you displayed throughout phases 1 and 2, and I hope we will have an opportunity to utilize your services again in the future.

Sincerely,

Jeannine Peterson, MPA  
CEO
