Subject: T.L.C. Construction & Renovation, LLC

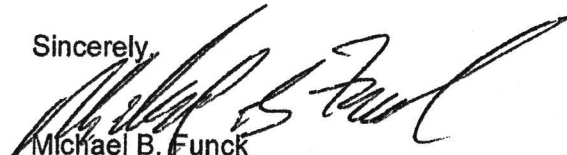

To Whom It May Concern,

T.L.C. Construction & Renovation worked with Wohlsen Construction on the construction of the Hamilton Health Center project Phase 2. Their scope of work included metal stud framing, hanging and finishing of drywall, and wood blocking. Our team worked closely with Tarik Casteel on the coordination and scheduling of work.

T.L.C. Construction and Renovation work was performed in a timely and workmanlike manner. Any item that our onsite superintendent brought to TLC's attention was quickly and efficiently handled without any hassle. Tarik and his staff have performed admirably meeting our team's expectations with their communication skills as well as the ability to organize a project and a job site.

Wohlsen will certainly work with TLC on future projects and recommends them to others.

Sincerely,

Michael B. Funck
Wohlsen Construction
